Username: parrotrakhy@agentforce.com (New Trainee)

Profile: Manager Profile

Read: (only)

field **Salary**, select **Hidden**.

Profile: Trainee Profile (User2 FrontDesk)

Read & Edit:

fields like **Salary**: **Hidden**

Standard Objects:

- Home
- Dashboards
- Reports

Custom Objects

- Employee

Validation

Formula Salary > 1,00,000 (HR cannot create record)

Reports:

- Active Employees Report
- Total Employees in Organization
- Employee Status Checking Gender Category
- New Employees Report
- Onboarded Employees Report

Summary:

- HR creates new Employee -> verify fields like salary range
- Manager views Employee (read only) -> salary hidden
- HR clicks "CreateOnboardEmployee" -> Onboarded updates
- HR imports bulk employees (CSV format) -> all records created excluding date format
- Enter salary > 100,000 as HR -> Validation Rule triggers
- Lightning page components appear based on Onboarded(checked/unchecked)
